Dear Mr. Wallerstein,

COUNTY OF LOS ANGELES 2012-2013 EMPLOYEE COMMUTE REDUCTION PROGRAM

The County of Los Angeles, in accordance with Rule 2202 of the South Coast Air Quality Management District (SCAQMD), hereby submits its 2012-2013 Annual Report for 67 regulated worksites as discussed with your Transportation Program staff. A total of 64 single sites, two multi-sites (actually containing four sites), and one Emission/Trip Reduction Strategy site is hereby submitted. Attached is a summary of the regulated sites and appropriate filing fees.

The County's regulated worksites have followed the Rule 2202 guidelines regarding good faith efforts and will be implementing a minimum of five marketing, five basic support, and five direct strategies, which will be offered to County employees at each regulated location. In compliance with SCAQMD Rule 2202 reporting requirements, Employee Commute Reduction Program (ECRP) plans and Average Vehicle Ridership (AVR) survey report data for all worksites with 250 or more employees are included as part of the County's 2012-2013 ECRP Report. The County is submitting a warrant totaling \$67,789.63 in filing fees for the 67 County sites.

Metro Commute Services' Rideshare survey results indicate that 39 of the County's 67 regulated worksites report an increase in the AVR or have met the AVR target for the area. Therefore, 58 percent of the County's regulated sites are in full compliance with Rule 2202. Following verification of survey results by the SCAQMD's Transportation Division, the County will officially recognize the ridership goal achievement of these worksites.

The County continues to explore and implement innovative Rideshare strategies, including the full implementation of a Countywide Employee Commuter Benefit Program, which allows employees to purchase transit passes with pre-tax dollars. We are continuing an aggressive marketing campaign in support of Metro's \$400 vanpool subsidy for new and existing vanpools and our "Green" Vehicle Purchasing Service

"To Enrich Lives Through Effective And Caring Service"

Program (VPSP), which offers employees the opportunity to purchase a hybrid or "Green" vehicle at a discounted price each year.

In 2012, the County expanded its Video Conferencing Program, which is currently being used by County Justice agencies, to reduce travel to courthouses. In addition, the County added Video Conferencing facilities at other departmental sites around the County to reduce traffic congestion resulting from employee travel to meetings. The County will continue to explore other programs that will help reduce traffic congestion and air pollution throughout the Los Angeles basin.

The Chief Executive Office, Office of Workplace Programs will continue to support the County's regulated sites, as it has done in the past, with hands-on direction and instruction with regard to implementation of the ECRP and the County's clean air plans and strategies. We conduct two annual workshops for our Departmental Employee Transportation Coordinators, which focus on the annual employee Rideshare survey and ECRP plan preparation.

If you need additional information about the County's 2012-2013 Employee Commute Reduction Program plans, please contact Eddie Washington, Assistant Director, Office of Workplace Programs, at (213) 974-1347 or ewashington@ceo.lacounty.gov.

We greatly appreciate the cooperation and assistance of your office in pursuing clean air objectives in the County of Los Angeles.

Sincerely,

WILLIAM T FUJIOKA
Chief Executive Officer
